# "who's who" in lubrication

## Quality

Proof of the supremacy of Gargyle Mobiloil rests not upon the endorsement of some one or a mere dozen of famous people. The fact is, because Mobiloil is a veritable "Who's Who" in automotive circles.

With these famous names you have this in common: You must believe in power, greatest dependability and lowest operating cost per mile. Here are four typical experiences with Mobiloil.

### Gerry Bouwer—

After a 1000-mile test drive from the factory to the top of Adams on the Atlantic Coast, Gerry Bouwer, South Africa.

"My other education made it impossible for me to pay attention to my Chrysler even to the point of missing the engine's regularity. I knew I was still working on a margin of safety. During 9 months and over 35,000 miles, it never made a single breakdown stop nor has a single engine part been replaced. Every piston stroke and explosion depended upon Mobiloil. Results were perfect."

### Col. Charles A. Lindbergh—

"In my flight from New York to Paris my engine was lubricated with Gargyle Mobiloil and I can assure you that it gave me every satisfaction. My engine functioned perfectly."

### Cannon Ball Baker—

After a 1000-mile test drive from the factory to the top of Adams on the Atlantic Coast, Cannon Ball Baker, South Africa.

"I can give wonderful performance and much credit for the run in due to wonderful service given by Mobiloil. I commend you on your real lubricant."

### Art Goebel—

After a 1000-mile test drive from the factory to the top of Adams on the Atlantic Coast, Art Goebel, South Africa.

"Used your Gargyle Mobiloil on flight to Hawaii. Every instrument. Engine functioned perfectly."

In each of these glowing testimonials the regular stock grades of Mobiloil were used—the same Mobiloil that you can buy anywhere for your car. You are always sure with

Millions of people have been told that the sun is the source of all the heat and light that we receive. But the sun is not the only source of heat and light. But the sun is not the only source of heat and light. There are other sources of heat and light, and they are all sources of energy.

It is probably because the sun is so close to us that the greatest evidence of its heat is the heat of the sun itself. The sun is a source of energy, and it is the source of all the heat and light that we receive. But the sun is not the only source of heat and light. There are other sources of heat and light, and they are all sources of energy.

## Voice Public Sentiment

**C**ANADIANS everywhere are viewing with satisfaction and significance the splendid progress that has been made during the past twelve months by MacLean's Magazine. The attitude of the people of Canada toward MacLean's is clearly reflected in the authoritative sales records which show its circulation to be many thousands in excess of the Canadian circulation of any other magazine, whether published here or coming to us from any other country.

Typical evidence of this Dominion-wide sentiment toward MacLean's is found in the following editorials from representative Canadian daily newspapers. These, and many other references of similar nature, are clear indications of the appreciation of the Canadian public in May for Canada's National Magazine.

### Col. Maclean's Medical Success

Col. John Byron Mecklen, of Mecklen's Magazine, The Financial Post and a host of trade journals, has been well at Canada.

It might not be supposed that there was any idealism behind the publishing houses which devote to such journals as *The Canadian Copest*, *Hardware* and *Metal*, *New Year Review* and so forth. These enterprises have such a commercial taint in their veins that it is difficult to remember them as their publishers with non-commercial intent.

But Carl Mearns, while holding up a series of trade journals appealing to the various grades he catered for, was (sneering another little while Mearns's Magazine which at one time made fifteen thousands out the profits of the other publications.

Col Merleau had an idea and an ambition. He intended to become the publisher of a Canadian magazine which should measure up, not only in its style and matter but also in its circulation in Canada, with anything that the United States could send in.

Moreover, the Colonial is an intensely patriotic Canadian, and was determined that, in far as it was in his power, Maclean's Magazine should be essentially Canadian in its entire makeup and content.

Congratulations are coming to Col. Nielsen upon his return, which is treated to in a recent advertisement which, coming from him, need not be questioned as to its veracity. It is there stated that Nielsen's last month, occupied by 22,000 the population in Canada of the most widely circulated United States magazine.

From being his pet baby, MacLean's has grown a maturity and its courageous publisher deserves credit not only for the principles that he has lived, but for the values Canadianism which has tried here on to build up a magazine worthy of his name.

### Cash on Hand

Canadian army where high profits in the success of any given project are shared between the army and the private contractor. The army is not a profit-making organization, but the private contractor is. The army is a Canadian organization and more widely read in the documents than any monthly or quarterly publication imported from the United States. It states that to arrive here in Canada one must accept that of each such a multi-valued American publication as the Saturday Evening Post by one or more of the magazines is given in print and several other issues are given in print and several other issues are given in print and several other issues are given in print.

All of which is very reassuring. The figures indicate that Canadians are receiving their own supplies in ever increasing numbers that when they do need American products, they prefer those of the highest quality and thus with a universal appeal. And that "back" will not shut us out from the vast potential in the growing Canadian market. And the people of this country are pleased with the steady improvement in the quality of our own publications. And the continuation of the change of conditions as compared with five or ten years ago.

Aspects of management have also changed, and this means a strong focus on getting the right people in the right jobs, and the bottom line profit. There is a lot of southern irony. Consider one lesson on it. It is that a southern writer has a more honest way to reveal his or her inner self than a northern writer. Consider how often to consider the theme of the responsibility of the wife who has been raped by the northern man. Instead, the southern male is not so much a victim as a perpetrator. In the Southern novel, "and the best of innocent men" are proved as guilty men, but

A second thing that we've noticed has brought us to an infinite number of people has to do with the fact that the internationalism and ethnicity and the sense of community that we have here might still have the heart of every Canadian. A nation is a group of like people, and there is no better group of like people than the people of the world. We have a lot of people here who are not quite so much as the rest of the world. On August 19th, I made out a statement that I only a little more and less.

The importance of

# Healthful Cleanliness

in Good Cooking can not be over-emphasized

## *Good cooking essentially requires Healthful Cleanliness*

To assure full food value and flavor, utensils must be healthfully clean—free from all impurities, taint or odor. Old Dutch cleans them perfectly and is therefore one of the greatest helps in good cooking. It also keeps utensils smooth and unscratched. This is important, as scratches cause food to more readily stick to the pan.

Old Dutch Cleanser has established a standard of cleanliness which should prevail in every home. Safety—thorough cleaning without injury to the surface. Efficiency—thorough cleaning quickly and easily done. Healthful Cleanliness most important of all—thorough cleaning by removal of the invisible and often dangerous impurities as well as the visible dirt.

Distinctive in quality and character. Old Dutch contains no harsh, scratchy grit, acids or caustic. Its flaky, flat-shaped particles possess remarkable detergent properties and wipe away the dirt with a smooth, clean sweep.

Perfect for snow-white and gayly colored porcelain and enamel cooking utensils, kitchen cabinets, ranges, refrigerators, etc., glass, earthenware and aluminum. Old Dutch preserves and protects their beauty.

*Doesn't harm the hands—  
there's nothing else like it*
